

OPTIONAL: CIVIC LEARNING PROJECT

MAKE-UP OR EXTRA CREDIT (25 pts)

OBJECTIVE: to offer you an opportunity to work in the environmental field, learn about an environmental organization, and reflect upon what you and the organization have gained from the experience.

ASSIGNMENT: Establish a service learning/volunteer opportunity with an organization related to environmental biology (alternatively you may do environmental biology-related activities with an organization not related to environmental biology; e.g., teach environmental biology in a classroom). Write a **Volunteer Plan** that includes the name of the organization, the name of your supervisor, planned activities, and approximate schedule. Document at least 8 hours of volunteer activity (does not include writing report). **Documentation** consists of a **Log** of how your time was spent and a **note signed and dated** (that minimally includes your name, the number of hours you volunteered, and your supervisor's phone number and signature) from your supervisor verifying your 8 hours of work. Reports must follow the format below and must be typed, double-spaced, and about 2-4 pages in length (see sample below). An electronic copy of the report must be turned into the instructor (e.g., attach MS Word file to email). You may turn in your report at least one week early for feedback.

REPORT FORMAT

USE THE HEADINGS GIVEN BELOW. Follow the directions ***exactly***.

TITLE [make informative]
Your Name

INTRODUCTION

State your **personal** goals you want to achieve through this volunteer work (make sure to make different from organization's goals for you).

Present background information on the organization for which you volunteered. Include:

- Mission of Organization
- Current Projects
- Organization's Goals for your project

METHODS

Group the activities you did into categories.

For each category:

- Give the percentage of your time spent doing activities in that category
- Describe the activities you did in that category.

RESULTS

How did your efforts help the organization?

How did your effort help the environment?

How does your volunteer experience tie in with our class?

DISCUSSION: Reflect upon your experiences. Include at least the following:

Did you fulfill your initial personal goals (restate them)? Why or why not?

How might these experiences help you in the future?

What suggestions would you make to the organization?

What suggestions would you make to anyone else volunteering with this organization?

Forever Wild: a Wildlife Experience Extraordinaire
